Important Update About Your Medicare Coverage for 2027

Dear Patient-

Thank you for entrusting us with your health care. It is a privilege to serve as your primary care provider, and we sincerely appreciate the trust you place in our team.

Our records indicate that you currently have a Medicare Advantage PPO Plan through Aetna. As you may have recently learned, Aetna will no longer offer individual Medicare Advantage PPO plans in 2027. If you get your Aetna Medicare Advantage PPO through a group plan, please ignore this message – these changes do not apply to you. If you have an individual plan, please keep reading.

As you consider your Medicare coverage options for 2027, we would like you to know that we participate across many Medicare Advantage Plans, in addition to Original Medicare. A licensed Medicare broker can help you confirm which specific plans are available to you so that you can continue your care with us and any other providers without interruption.

The Medicare Annual Open Enrollment Period is **October 15 to December 7, 2026**.

We highly recommend you consult with your Medicare broker to discuss your options. If you are not already working with a licensed Medicare broker, you can call My Senior Health Plan at 877-217-5966 or SBHIS Insurance Services at 888-486-5778. Note that there is no cost to you in working with either team or another licensed Medicare agent.

Thank you again for the opportunity to be your healthcare partner. We remain committed to providing you with high-quality, compassionate care in 2027 and beyond.

Sincerely,
Perlman Clinic
